Major Research areas and the published papers related to Psychology in Nepal

Depression and life satisfaction

Ontology

Dahlin, B. and Regmi, M.P. (2000). Ontologies of knowledge, East and West – a comparison of the views of Swedish and Nepalese students. QUALITATIVE STUDIES IN EDUCATION, 13, 43- 61. (I think this paper is available in my or psychology network scribd library) go to scribd.com and search in there!

Personality and forgiveness

Cognition

Self-esteem

Learning

**Mental health of Refugees**

**Cross cultural research**

The Global Deception Research Team (2006). A world of lies. Journal of Cross-cultural psychology, 37, 60-74. (Nepal is included in this study; Representative: Shanta Niraula; Bond, C. et al. = 90 authors. It was wonderful to read the list of collaborators in the study.)

**Attitude**

Psychosocial counseling in Nepal

Mental health

Note: This list is not exhaustive in any sense. There are numerous other studies and works done by Nepalese and foreign scholars which have not been published in the journals nor are they present in the cyberspace.
